FROM : [REDACTED]

SUBJECT: East German Political Boundaries

1. As I vaguely recall at a recent staff meeting prior to my debarkation, [REDACTED] gave a dissertation 25X1A9a on the changes in the East German political boundaries, the whys and wherefores of these changes. All this seemed to be well understood by you geographers.

2. Indications have come to [REDACTED] that changes have 25X1A9a been made but he has nothing further and does not comprehend what is the reason. I told him that I would see if you could furnish information adequate to answer his questions on why the changes and their internal implications. In other words it would be the same information which poured into my ears in Room 2109, M Building. Can you give me some intelligent support on this?
